OBJECTIVE

Work as a Back-End or Full Stack .NET Developer, contributing with my skills to build scalable and efficient software solutions.

PROFESSIONAL SUMMARY

Full Stack Developer with experience in C# .NET, JavaScript, HTML, CSS, Vue.js, and React.js.
Postgraduate in Software Engineering and graduate in Systems Analysis and Development.
Strong understanding of DDD, Clean Code, microservices, and event-driven architecture.
Experienced with Azure Functions, Azure Service Bus, SQL Server, MySQL, and unit testing using xUnit.
English level B2, actively working toward C1.

PROFESSIONAL EXPERIENCE

TETRIS IT – Back-End .NET Developer (Feb/2025 – Present)

Allocated to MAG Seguros working on event-driven architectures and back-end development using C# and Azure.

• Development of microservices and serverless applications (Azure Functions).

• Azure Service Bus for message-based communication.

• Application of DDD and Clean Code principles.

• Creation of unit and integration tests using xUnit.

• Maintenance and evolution of event-driven systems.

RCA Sistemas – Full Stack Developer (Sep/2021 – Feb/2025)

• Development of APIs and systems using C# .NET Core and DDD.

• Data access using Dapper and Entity Framework Core.

• Web development with Vue.js + Bootstrap and Desktop apps with Windows Forms + DevExpress.

• SQL Server and MySQL for queries, stored procedures, and database modeling.

• Git version control and Agile workflow using Jira.

• Implementation of authentication/authorization with JWT and Identity.

RCA Sistemas – Junior Developer (Jun/2021 – Aug/2021)

• Development of CRUD applications using .NET, HTML, CSS, and JavaScript.

• Maintenance of Bootstrap pages and Vue.js systems.

• Support in maintaining Desktop and Web applications.

EDUCATION

Postgraduate Degree in Software Engineering – Unyleya (2024)

Bachelor's in Systems Analysis and Development – Estácio (2021–2023)

TECHNICAL SKILLS

• C# .NET Core/Framework, OOP, DDD, Clean Code

• Microservices, Event-Driven Architecture

• Azure Functions, Azure Service Bus

• SQL Server, MySQL, Dapper, Entity Framework Core

• JavaScript, Vue.js, React.js, HTML, CSS, Bootstrap

• Git/GitHub, Jira (Scrum/Kanban), Docker

• Unit Testing with xUnit

LANGUAGES

Portuguese – Native
English – B2 Upper Intermediate (working toward C1)

CERTIFICATIONS

• Scalable Algorithms Programming

• FullStack Training

• TDD with xUnit

• Information Systems Programming

• C# + MySQL – Sales System Development
